Shotgun Equipment
All Skeet athletes must have an ISSF seal with serial number on their Skeet marker tapes. Any shooting vests that do not have an ISSF seal on the Skeet marker tape must be submitted to Equipment Control for inspection and the affixing of a seal before the competition.
Equipment Control will be conducted according to ISSF Rules using approved, calibrated instruments. Pre-competition testing is not mandatory. However, athletes are responsible for competing with legal equipment and clothing. All athletes are urged to submit any doubtful equipment and clothing to Equipment Control or the Shotgun Jury for checking before the competition. All athletes are subject to being selected for random testing during the competition. Athletes found to be in violation of the rules for Shotguns or Skeet marker tapes will be disqualified.

Buttstock Height (for Skeet only)
The height of the buttstock (either adjustable or "Monte Carlo" type) measured from the highest point of the cheek rest to the lowest point of the butt plate toe must not exceed 170mm (17cm). Any butt plate toe vertical extension which is not an integral part of the buttstock and simply intended to increase its height, is not permitted.

Cartridge Control
During Qualification, athletes whose cartridges are to be tested are selected by a computer draw. Between 10% and 18% of the athletes participating in an event will be selected for cartridge testing. Two (2) plus four (4) cartridges will be selected from each athlete and placed in separate labeled envelopes. The two (2) cartridges must be tested first. If both cartridges weigh 24.50 g or less, no further action will be taken. If one (1) or both cartridges weigh more than 24.50g, then the four (4) cartridges in the second envelope must be tested. If the average of the six (6) cartridges weighs more than 24.50 g, then the athlete must be disqualified (DSQ).
During Final, all six (6) finalists must be tested using the same procedure. The Finalists or their Coaches/Officials must bring, as early as possible, but not later than 30 minutes before the scheduled start of the Final (Reporting Time), all the cartridges that will be used during the Final and place them in separate Cartridge Control Boxes on the Finals field of play. The Finalists must report at least 15 minutes before the start of the Final. The Equipment Control Jury will take the necessary samples from the boxes. The boxes must be left under the supervision of a Shotgun Jury Member. Once cartridges are placed in the box, only the Equipment Control Jury or the Finalist can remove cartridges from the box. If additional cartridges are brought to a Finalist during Finals, samples from those cartridges must also be selected for testing. All cartridge controls must be completed before the start of the Presentation of the Finalists. Any disqualified (DSQ) athlete will not be allowed to participate in the Final (There will be no elimination for 6th place; the first elimination will be for 5th place).

Colored Wads
Only transparent or translucent wads with no color may be used. Colored wads are prohibited.

Equipment Control
Equipment Control will be open to athletes according to the Competition Schedule.

They make it easier for legitimate travelers to apply for a visa to come to Greece, facilitating tourism, trade and business, while providing more resources for countering irregular migration risks and threats to internal security.

For more information please visit the following link at the Greek Ministry of Foreign Affairs official website: https://ec.europa.eu/commission/presscorner/detail/en/qanda_20_149

All European Union citizens have the right to enter Greece by virtue of having an identity card or valid passport.

Nationals of the countries, of which the possession of a visa is required when crossing the external borders of the Member States:
For the participants of those countries, the Organizing Committee of the Hellenic Shooting Federation will write a letter, after their participation has been confirmed and after receiving the **VISA Support Form (no later than 8 AUG 2025)**, to facilitate them to apply to the Greek Embassy in their home country or nearest available Embassy or Consulate for an entry visa.

Firearm Permits

Owners of a European Firearms Passport (EFP) may import their firearms without an auxiliary permission to Greece.

All countries who do not belong to the European Union have to use the following procedure.
In order to be in compliance with Greek firearms laws, a firearms permit must be issued for the duration of the ISSF World Championship Athens 2025 by the Greek State, for every single firearm that will enter the country for the purpose of training and competition. For your assistance, it is required that a copy of the attached firearms declaration form and a copy of the current shooting license in the participants home country be submitted for each athlete prior to the arrival of the athletes.

Import and Registration of Firearms and Ammunition
It is the responsibility of the National Federations before the arrival of their athletes to fill in the specific forms with all the necessary information concerning the sport firearms and ammunition to be brought into Greece by their participants. Upon their arrival at the Hellenic Custom Authorities, by having filled in the specific attached forms, the sport equipment brought into Greece will be registered and it must be the same with the one declared by the National Federations.

Every person who has access to the sport firearms must be registered.
The registration is valid for the duration of the participants stay in Greece and expires on the day of his/her departure.
Note that absent the permit the firearms will be detained by Greek Customs upon arrival and will not be released to the participants until all necessary paperwork has been completed and permits issued.

All participants and team officials must comply with the provisions of Greek firearms laws and Customs Regulations for importation and re-exportation of firearms.
The firearm permit, as issued by the Hellenic State, requires that all firearms will be re-exported at the end of competition and under no circumstances will remain in the country.

Please forward the enclosed information to your athletes as well as any team official or team member who may handle athletes' firearms in Greece.

It is recommended that all delegations carry a list of all firearms and ammunition with themselves (Firearm and Ammunition Excel File - Annex 6.2), to be presented to customs or border police upon request together with the invitation.

Completed individual forms, the current shooting license in the participants home country and the Firearms and Ammunition Excel File 6.2 must be submitted by **8 AUG 2025** to:
