3. Rules and Regulations

The ISSF World Cup will be conducted according to the actual ISSF Rules and Regulations – Detailed Information is available on the ISSF website www.issf-sports.org

ISSF Juries (Competition Jury, RTS Jury/Equipment Control Jury) will be designated by the ISSF to supervise the ISSF WC. Qualified Referees holding applicable ISSF Licenses will conduct the competitions.

Shotgun Equipment

All skeet athletes must have ISSF seals with serial numbers on their marker tapes. Any shooting vests that do not have ISSF seals on the marker tapes must be submitted to Equipment Control for inspection and the affixing of a seal before the competition. Equipment Control will be conducted according to the ISSF Rules using approved, calibrated instruments. Pre-competition testing is not mandatory; however, athletes are responsible for competing with legal equipment and clothing. All athletes are urged to submit any doubtful equipment and clothing to the Equipment Control or the Shotgun Jury for checking before the competition. All athletes are subject to being selected for random testing during the competition. Athletes found to be in violation of the rules for guns or skeet marker tapes will be disqualified.

Cartridges Control

During Qualification, athletes whose cartridges are to be tested are selected randomly by a computer draw. Between 10% and 18% of the athletes participating in an event will be tested. Two (2) plus four (4) cartridges will be selected from each athlete and placed in separate labeled envelopes. The two (2) cartridges must be tested, first. If both cartridges weigh 24.50g or less, no further action will be taken. If one (1) or both cartridges weigh more than 24.50g, then the four (4) cartridges in the second envelope must be tested. If the average of the six (6) cartridges weigh more than 24.50g then the athlete must be disqualified (DSQ).

During Finals and Ranking Matches, all finalists must be tested using the same procedure. The Finalists or their Coaches/Officials must bring, as early as possible, but not later than 30 minutes before the scheduled start of the Final and the Ranking Matches (Reporting Time), all the cartridges that will be used during Finals and Ranking Matches and place them in separate Cartridges Control Boxes at the predesignated reporting area. The Finalists must report at least 15 minutes before the start of the Final. The Equipment Control Jury will take the necessary samples from the boxes and the boxes will be sealed. The boxes must be left under the supervision of the Equipment Control Jury Member. Once ammunition is placed in the box, only the Equipment Control Jury or the Finalists can remove ammunition from the box. No additional cartridges are brought to a Finalist during Finals. All cartridges control must be completed before the start of the Presentation of the Finalists. Any disqualified (DSQ) athlete will not be allowed to participate in the Finals.

Colored Wads

Only transparent or translucent wads with no color may be used.

If an athlete uses ammunition that is not in accordance with Rule 9.4.3.1 a), then the athlete must be disqualified (DSQ).

Equipment Control

Equipment control will be open to competitors as scheduled in the Program of the competition.

4. Participation

Individual Events

Each ISSF Member Federation can enter a maximum of five (5) athletes in individual events but only three (3) of them can be registered to compete for the medals. The other two (2) can only compete for the Ranking Points (RPO), according to the ISSF General Regulations.

Mixed Team Events

ISSF Member Federations may enter a maximum of two (2) teams consisting of one (1) man and one (1) woman per mixed team event.

Maximum Entry

The maximum number of starts per event is the number of athlete entries that can be accepted for each ISSF World Cup. Range capacity is determined by the available shooting time and the number of available ranges.

If the maximum number of starts is reached during the Final Entry process, a “waiting list” for that event(s) will be established. If cancellations are subsequently received, entries for the waiting list will be entered on a first come, first served basis. ISSF Headquarters and the Organizing Committee will cooperate to determine if additional entries from the waiting list can be accommodated.

Men Events	Max. No of Starts	Women Events	Max. No. of Starts
Trap Men	114	Trap Women	48
Skeet Men	102	Skeet Women	48

Mixed Team Events	Max. No of Teams

Accreditation Process

All delegation members involved in the ISSF World Cup (Athletes, Team Officials, ISSF Officials, OC Officials, Media representatives) must have accreditation that clearly identify its holder (with photograph, family name and first name, nation and function) in order to use the local transportation and to enter the controlled areas on the shooting range.

Accreditations (for persons registered before the Late Entry Deadline and with photograph in the ISSF database) will be prepared by the ISSF Headquarters and Organizing Committee. All other accreditations will be prepared, at the Range, by the ISSF World Cup Accreditation Office.

Accreditation and BIB numbers will be distributed by the Organizing Committee after payment of the entry fees.

6. Shooting Range

The ISSF World Cup will take place at the “Lusail Shooting Complex” on the outskirts of the city of Doha.

Address:

Lusail Shooting Complex
Zone 70, Street 1706, Building 88
Doha, Qatar

The shooting range has six (6) combined ranges for Trap/Skeet.

All ranges are equipped with Laporte machines and Elettronica Progetti acoustic release systems. On each layout, Elettronica Progetti scoreboards are installed.

The firing direction of the shooting range is North, North-East.

The targets used for the ISSF World Cup are eco-friendly from Laporte, standard orange for the Qualifications and flash orange for the Finals.

The Range has a very nice restaurant which can offer meals, snacks and a good variety of beverages and water.

The shotgun ranges and the whole venue are disabled friendly.

7. Immigration and Customs Requirements

Entry Visa

Nationals of more than 80 Countries are now eligible for Visa-free entry upon arrival in Qatar.

Detailed information regarding visas and formalities for entry into Qatar can be found on the Ministry of Interior website: <https://portal.moi.gov.qa/qatarvisas/>

The Organizing Committee will assist participants whose nationality needs prior arrangements for the Entry Visa.

Customs Formalities, Import of Firearms

A temporary import license will be issued to all participants by the Qatar Ministry of Interior; the Organizing Committee will email the permit to the federation prior to the arrival date. Any request of change of the shotgun details after the deadline must be notified until five (5) days prior to the arrival.

Upon arrival, the Organizing Committee airport officers will assist participants in dispatching the Police and Customs formalities and escorted them to the bus. Travelers will meet OC assistants at the baggage collection area upon arrival.

The **Qatari law strictly prohibits taking firearms and ammunition to the hotel.** Upon arrival, guns and ammunition will be transported by our officers from the airport to the Shooting Complex and back to the airport at the end of the competition.

Useful information on the carriage of Shotguns on International Flights

As a rule, before issuing any flight ticket the travel agency appointed to book the flights should make sure that both ammunition and the firearms are accepted on board the aircraft till the final destination.

The Approval should appear in the electronic ticket (on the PNR Passengers Name Record) or on a separate message sent to the travel agency by the Airline Company.

The rules governing the carriage of ammunition and firearms are those of the carrier who owns the aircraft therefore, in case of flights made in code-sharing, the approval must come from both companies even if on the ticket the abbreviation of only one Company appears (i.e.: AF-BA-LH-QA, etc.).

Normally, the final decision to accept firearms and ammunition on board comes from the captain/Airline Company, but once you have the "OK" on your flight ticket, the Airline Company is responsible for having your firearms sent to destination.

In case of indirect flights, it is advisable to consider a connection of at least two hours.

Upon landing at the first airport, report to the information counter and make sure that your firearms have arrived and will be taken on board of the connecting flight.

Still, in case of indirect flights, avoid booking them with two different Airline Companies as most of the times the firearms will be discharged and let at the first airport and the owners will have to collect them and make a new check-in, provided the local police authorities do not cause problems of licenses. That will probably cost extra security and boarding taxes and sometimes extra baggage fees. If passengers are not informed, they risk arriving at the final destination without knowing that their firearms have not been loaded on the connecting flight and are lying in the previous airport. In many countries even if in transit and the baggage is labeled till destination, the control of firearm is made at the first airport of arrival and this is why it is advisable to keep the situation under control step by step.

All firearm and ammunition must be declared while making flight reservations and at check-in and follow the procedure reserved to these special articles. It is a big mistake to pack them into normal bags and dispatch them as normal baggage because in case of loss it will be very difficult to find the firearm in a short term and, last but not least, owners will be liable to heavy fines.

9. Travel and Transportation (Airport and Local Transportation)

Travel-Arrival

Arrival in Qatar can be made through the **Hamad International Airport** in Doha which offers excellent travel connections with the entire world. Qatar Airways has flights with more than 150 international destinations.

The driving distance from the airport to the city center where the majority of the hotels are located is approximately 30/40 minutes.

The Organizing Committee will arrange an airport pick-up/transfer service free of charge and all participating federations are requested to submit the arrival and departure details of their teams on time (completed official Final Travel Form – Annex 7).

Local Transportation – Shuttle Service

For those participants who will be staying in the official hotels, transport to and from the Shooting Range will be provided free of charge. A timetable will be published and displayed on the information boards, at the range and at the hotels. The Shuttle Service will start on **04 MAR 2023**.

Firearm and Ammunition

Storage of Firearm and Ammunition

The **Qatari law strictly prohibits taking firearms and ammunition to the hotel**. Upon arrival, guns and ammunition will be transported by our officers from the airport to the Shooting Complex and back to the airport at the end of the competition. The storage of firearms will be free of charge.

Ammunition

The customs authorities will allow participating athletes to import with them all the necessary cartridges that will be used for the competition. Imported cartridges (RC, FIOCCHI, CLEVER) will be available for sale at the shooting range at around USD 14 to USD 16 per box of 25.

On departing from Qatar, athletes will be allowed to re-export a maximum number of 125 cartridges only, packed into a single ammunition case which must not exceed 5 kg in weight, **provided that the quantity declared on arrival into Qatar, is in excess of this amount**.

Doping Control Tests

The Organizing Committee will conduct Doping Control Tests according to the ISSF Anti-Doping Rules and ISSF Test Distribution Plan 2023 under the supervision of the ISSF Technical Delegate.
